

# Ayzek Salimli | Resume

- » Status: Bachelor's student (expected graduation 2026), SPbPU, ICNS, Mathematics and Computer Science
- » Languages: Russian (native), English (B2)
- » Main ML/DL Stack: Python, PyTorch, TensorFlow, Ultralytics YOLO, FastAPI, Scikit-learn, Scikit-image, Numpy, Pandas, Matplotlib, Seaborn, LangChain, OpenAI API, Hugging Face, Computer Vision
- » DevOps, CI/CD: Docker, Kubernetes, Terraform, Ansible, Jenkins
- » Databases and Brokers: PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ
- » Mathematics and Theory: Statistical Machine Learning, Probability Theory, Mathematical Statistics, Optimization Methods, Algorithms and Data Structures, Discrete Mathematics, Quantum Computing
- » Other Languages and Frameworks: **Haskell**, C++, R, Java, Spring Framework, Hibernate, Spring JPA, Spring JDBC, Maven, Gradle, Concurrency
- » Interests: Computer Vision, Mathematical Modeling in AI, Travel, Football, Music

## » » » Professional Summary

ML Engineer with strong mathematical and statistical background, finishing a Bachelor's degree in «Mathematics and Computer Science» at SPbPU. Practical experience in developing computer vision and deep learning models (PyTorch, TensorFlow, Ultralytics YOLO), integrating LLM solutions (LangChain + OpenAI API), solving transportation routing problems (VRP/DVRP) using optimization methods, and building production systems on FastAPI. Proficient in DevOps stack (Docker, Kubernetes, Terraform, Ansible, Jenkins). Author of scientific publications in computer vision. Seeking to apply statistical machine learning to solve complex AI problems.
